EVALUATION OF CONTINGENCY PLAN PROCEDURE

1.0 PURPOSE

This Order is issued to provide guidance and information to CNS Inspectors to evaluate contingency plan procedure in accordance with advisory circular no…… and Regulation 23 of ANS Regulations.

2.0 REFERENCES

2.1 Regulations 23 of ANS Regulations
2.2 Advisory Circular No….. CAA-AC-CNS , Contingency plan

3.0 GUIDANCE AND PROCEDURES

3.1 Introduction
Contingency plans are intended to provide alternative facilities and services when those facilities and services are temporarily not available. The ANS regulations requires an ANS provider to develop and maintain Contingency plan procedure for implementation in the event of disruption or potential disruption, of air navigation service in the airspace for which it is responsible

3.2 Evaluation procedures
3.2.1 The contingency plan procedures should be evaluated to ensure that it satisfies ANS Regulations. It is therefore important to ascertain that:
   (a) There is detailed guidance and procedures for restoring failure systems.
   (b) Recovery strategies to ensure that the systems are recovered quickly and effectively following a disruption.
   (c) Alternative arrangements for providing the service and the arrangement for resuming normal operations for the service
   (d) Contingency plan procedures to be followed in the events of a total power outage and CNS personnel industrial unrest.
   (e) Procedures conforms with Civil Aviation (Security) Regulations
3.3 **Results**
3.3.1 Upon completion of the review, analyse the results and determine whether the procedures meet all requirements.

3.1.1 If discrepancies are found the ANS provider is notified in writing listing the specific discrepancies found.
