PERFORMANCE BASED SAFETY OVERSIGHT MANAGEMENT
The Course Goal is:
To equip Senior Civil Aviation personnel responsible for State Safety Oversight Systems and Senior Service Provider Personnel engaged in ensuring compliance with Civil Aviation Regulations, with necessary skills and competencies to implement and manage a performance-based safety oversight system by adopting tools and methodologies aimed at ensuring optimal resource utilization and enhanced State Implement Safety Programme (SSP).

Learning Objectives:
By the end of the course, participants should be able to:
➢ Review Legislative Framework for Safety Oversight
➢ Determine Safety Oversight Capacity
➢ Develop Standardized Safety Oversight Requirements
➢ Manage Certification, Approval and Authorization
➢ Co-ordinate Monitoring and Improvement of Safety Oversight
➢ Appraise Performance Measurement

The target population for the course include:
➢ Managers and Senior Officers in Aviation Safety Oversight
➢ Aviation Safety Inspectors
➢ Managers and Senior Officers of Service Providers
➢ CAA Senior Officers and Managers other than those in Safety Oversight
➢ Legal personnel that support safety oversight
➢ Service Provider Personnel engaged in ensuring compliance with Civil Aviation Regulations
